

This course focuses on the intersection of animal studies and social theories of the built environment. The present bibliography is a list-in-progress of supplemental resources that will serve as more general introductions to the interdisciplinary field of animal studies. I will continue to add to this list during the semester. If you have additional suggestions, I will add those, too.

Monographs

Tim Ingold (1988), *What Is an Animal?*
Cary Wolfe (2009), *What Is Posthumanism?*
Julie Urbanik (2012), *Placing Animals: An Introduction to the Geography of Human-Animal Relations*
